Applicant's canceling of claims 20-22 in the amendment/response submitted on 9/12/05 is acknowledged.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Popovici on 11/15/05. This amendment was done so as to facilitate allowance of the case since as explained by the examiner to Mr. Popovici that the new claims 25-26 are directed to inventions that are distinct—requiring restriction with original presentation--from the originally filed claims and that they would require a new different search than that of the originally fled claim. Thus, Mr. Popovici agreed to cancel the new claims 25-26.

Please cancel claims 25-26

Reason for Allowance

Claims 1-19 and 23-24 are allowed for the following reasons:

The instant application is deemed to be directed to a nonobvious improvement over the invention patented in Pat. No. Graesser (US 6517253).

Art Unit: 2883

Claims 1-19 and 23-24 are allowed because the prior art of record, taken alone or in combination, fails to disclose or render obvious wherein the inner protective tube and the outer protective tube are longitudinally movable relative to the optical fiber along at least a part of the optical fiber enclosed by the inner protective tube and the outer protective tube in combination with the rest of the limitations of the base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
